Education

BS in Media Engineering and Technology (CS department)
Sep 2014 - Jun 2019

German University in Cairo, Cairo

- GPA: Very Good.

Skills

React | Typescript

HTML | CSS | Javascript

React Query | Redux | Saga

Material UI | React Aria

Styled Components

Sentry | Mix Panel | Sonar Cube

GitHub | Github Actions | Jira

Work Experience

Front End Engineer II Jan 2022 - Present
Trella, Hybrid

- Led the migration of the codebase to React 19, enhancing application performance and maintainability.
- Developed and integrated Rental Contracts for providers, significantly improving profitability and operational efficiency.
- Refactored the authentication flow to align with industry security standards, strengthening application security.
- Engineered background processing solutions for large file downloads, ensuring seamless user experience during app usage.
- Reengineered core components using React Aria to enhance accessibility and compliance with WCAG standards.
- Mentored junior engineers through structured code reviews, knowledge sharing sessions, and continuous feedback.
- Compiled and delivered monthly progress reports, providing key stakeholders with insights into project status and developments.
- Authored and maintained RFCs for the adoption of new technical tools and frameworks, facilitating informed decision-making.
- Played a key role in migrating state management from Redux Saga to React Query, optimizing data fetching and improving maintainability.

Front End Engineer Sep 2021 - Dec 2021
Getro, Remote

- Designed and developed new features using React and JavaScript, enhancing application functionality and user experience.
- Diagnosed and resolved critical bugs, improving application reliability and user satisfaction.

Front End Engineer Dec 2020 - Aug 2021
DocuSign, Hybrid

- Developed and implemented new features using React and TypeScript.
- Identified, diagnosed, and resolved bugs to enhance application stability and user satisfaction.

Full Stack Engineer Jun 2019 - Nov 2020
Callvita, Hybrid

- Designed and developed full-stack applications, building web frontends with React.js, backends with Node.js, and cross-platform mobile apps with React Native.
- Integrated payment gateways such as Stripe and Fawry, ensuring secure and efficient transaction processing.
- Leveraged AWS services for hosting, security, and authentication, optimizing infrastructure for scalability and reliability.
- Led development milestones and collaborated with engineering teams to enhance system performance, scalability, and maintainability.

Internships

Web Developer

Jun 2018 - Aug 2018

ULM University, Ulm, Germany

- Developed and implemented user interfaces using Angular 5, enhancing functionality and user experience.
- Localized the website to support three languages (Arabic, English, and German), improving accessibility and user engagement across diverse audiences.

Scrum Master

German University in Cairo, Cairo, Egypt

- Served as Scrum Master for a software engineering course project, implementing Agile methodologies to optimize development cycles.
- Managed task delegation and team coordination, ensuring balanced workloads and efficient project execution.
- Led the team to achieve 3rd place in client rankings through effective collaboration and project management.

Certificates

AWS Certified Cloud Practitioner

2021

International TOEFL iBT® Internet-Based Test

2014
